
EE 491 Weekly Report MAY15-22 Week 2

(9/8/14-9/15/14)

Advisors: *Timothy A Bigelow* **Client:**

Members (roles): Aaron Tainter, Weikun Han, Jingyu Xie, Haoyu Wang

Project Title:

Ultrasound Brain Imaging

Weekly Summary

This week, we met with Professor Bigelow and discussed the scope of the project. Professor Bigelow introduced us to the different technologies we would be using and showed us the lab equipment. Due to the fact that he is still waiting for some hardware to be delivered, we cannot start working on the project yet. We were asked to start learning LabVIEW over the course of the next week.

Meeting notes

9/12 Group Meeting

Duration: 60 min

Members Present: All

Purpose and Goals:

Talk with Professor Bigelow, understand scope of the project, learn the technologies needed to implement the project.

Achievements:

Contact with Professor Bigelow, direction for research.

Pending issues

Learn LabVIEW software.

Plans for next week

Meet with Professor Bigelow to begin work on the project and division project responsibilities. Learn LabVIEW software.

Individual Contributions(this week)

All group members met with Professor Bigelow

Total contributions for the project

All members - 1 hour
